

Byron Walls **California Crimefight**

Byron Walls has been speaking on the subject of crime safety since 1980 when he went to work for Citizens Against Crime in Nashville, TN. From 1984 to 1996, Byron was Regional Director of CAC in Portland and Seattle where he and his consultants spoke to over 20,00 people a year on this important subject.

In 1994, Citizens Against Crime (with speakers in over 40 cities) selected Byron as National Speaker of the Year.

In 1996, Byron moved to Los Angeles and started California Crimefight. Byron's skills developed from twenty years as a professional comedian, actor, and singer. These skills are abundantly clear when you hear him speak.

Quest at Casa Romantica, September 2018

The season's kickoff AAUW W-FV-HB Quest visited San Clemente's Casa Romantica. The Cultural Center and 2.5 acres of gardens, opened its doors to the public in 2003, and offers stunning examples of coastal landscaping and native plants; including some originally installed by Ole Hanson; the Casa's owner in the 1920's. The estate houses original and period furnishings, artwork, memorabilia, historic photos, changing displays and cultural events. During construction the Hansons had tile and furniture factories on site, and imported European craftsmen to ensure authenticity.

The seven-bedroom, seven-bath house was built with the finest materials and innovations in construction at that time. The Hanson family brought exotic furnishings, plants, and animals to the home, including colorful fish that filled the tiled courtyard pool (until one of the boys brought home a pet alligator) and several horses for beach rides. It was interesting to learn that the Casa was designed by the same architect as Casa Pacifica which was Richard Nixon's retirement residence and was the Western Whitehouse while he was in office.

Presidents' Message

As you may have noticed on your October TriCity Newsletter, AAUW has adopted a new National strategic plan –*Beyond Aspirations: Advancing Equity for Women and Girls*. This plan includes new:

Mission – To advance gender equity for women and girls through research, education and advocacy.

Vision – Equity for all.

Values - Non-partisan, Fact-based, Integrity, Inclusion and Intersectionality. (*interpretation to follow*)

You will be seeing more about this as the plan unfolds to its fullest. Stay tuned!

As we come around to November, elections come near. You will be inundated with huge banners in the neighborhoods, flyers on your door, ads on television and radio and candidate forums. AAUW does not endorse candidates, but the most important thing is to educate yourself as to issues for women and girls, and then vote your conscience.

Voting is important! It is our chance to elect legislators who will support legislation that moves our mission forward. The best path forward to equity and progress for women, girls and their families is through the ballot box. As old Abe Lincoln said, “The ballot is stronger than the bullet.”

November is also a time for remembering to count our blessings to be able to live in a country in which we can openly vote our choice. Each person has one vote. Exercise your right!

Thanksgiving Blessings. See you at the November meeting, and, bring a friend. Let’s see all of those smiling faces.

Bev Nogy and Carole Smith

P.S. There will be a test.

Tech Trek Thank You

Dear WM-FV-HB Branch,

Thank you for giving me the amazing opportunity of going to Tech Trek! This camp has been so fun and educational. Professional Women's Night has opened my eyes to career fields I never knew. I received great advice on what I need for my education to get into college and succeed. We did activities throughout camp that I otherwise would never have experienced. One night we extracted DNA from a strawberry. Another night we "took a bite of reality" and learned about financial literacy. I loved my core class, Biology, where I got to grow bacteria in petri dishes, look under a microscope, cast bones and more! Another great experience was when visiting civil engineering, Alzheimers, stem cells and solar labs. I found girls that shared my interests and gained experience in living with a room-mate in a dorm. I cannot express how grateful I am to you for enabling me to attend this amazing camp. Thank you!
